# Budget Breakdown

# EXECUTIVE SUMMARY

# It's inexpensive.

What's better is that...

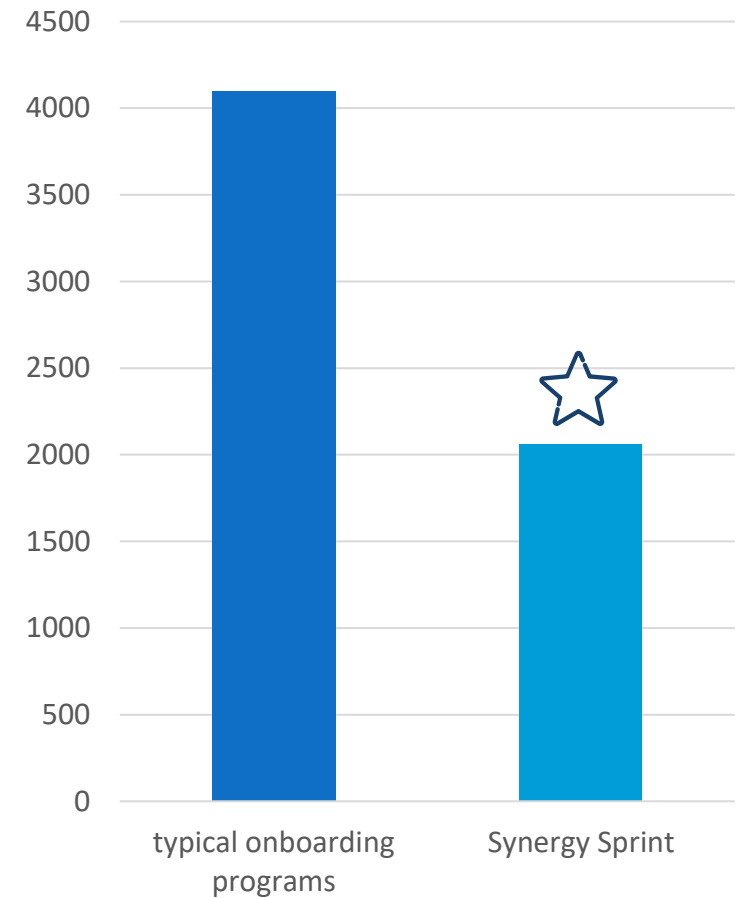

It will become **cheaper and cheaper** as the company grows bigger and new employees are hired more.

From our three prototypes produced by rapid prototyping, you can **easily make adjustments** to the onboarding program if needed.

We get the most out of your **existing technologies**.

Onboarding program cost compared to typical programs (per new hire)

# It's fast.

## And it covers all of your needs!

Administrative knowledge  
Is included in Day 1&2 asynchronous  
Modules.

Integrity, Commitment, and  
Accountability will be the  
Themes of Day 2, 3, and 4  
Synchronous modules.

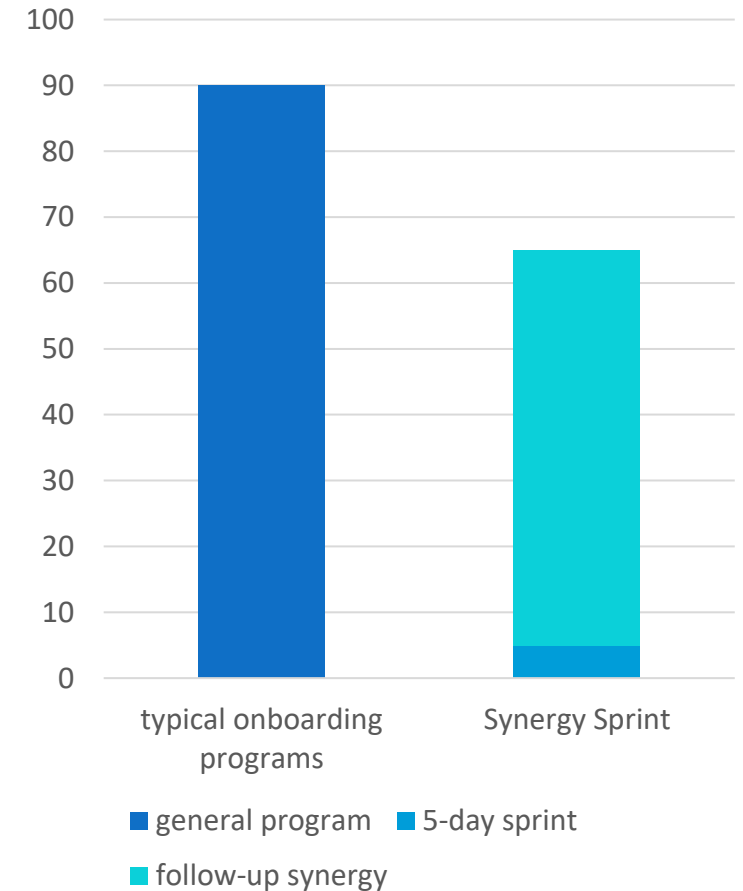

Employees will practice administrative  
Procedures during the follow-up  
60 days when they still have support  
From reflections and newsletters.

Employees will learn work  
Procedures while working  
On the mock project.

Onboarding program length  
compared to typical  
programs (in days)

# It's synergizing.

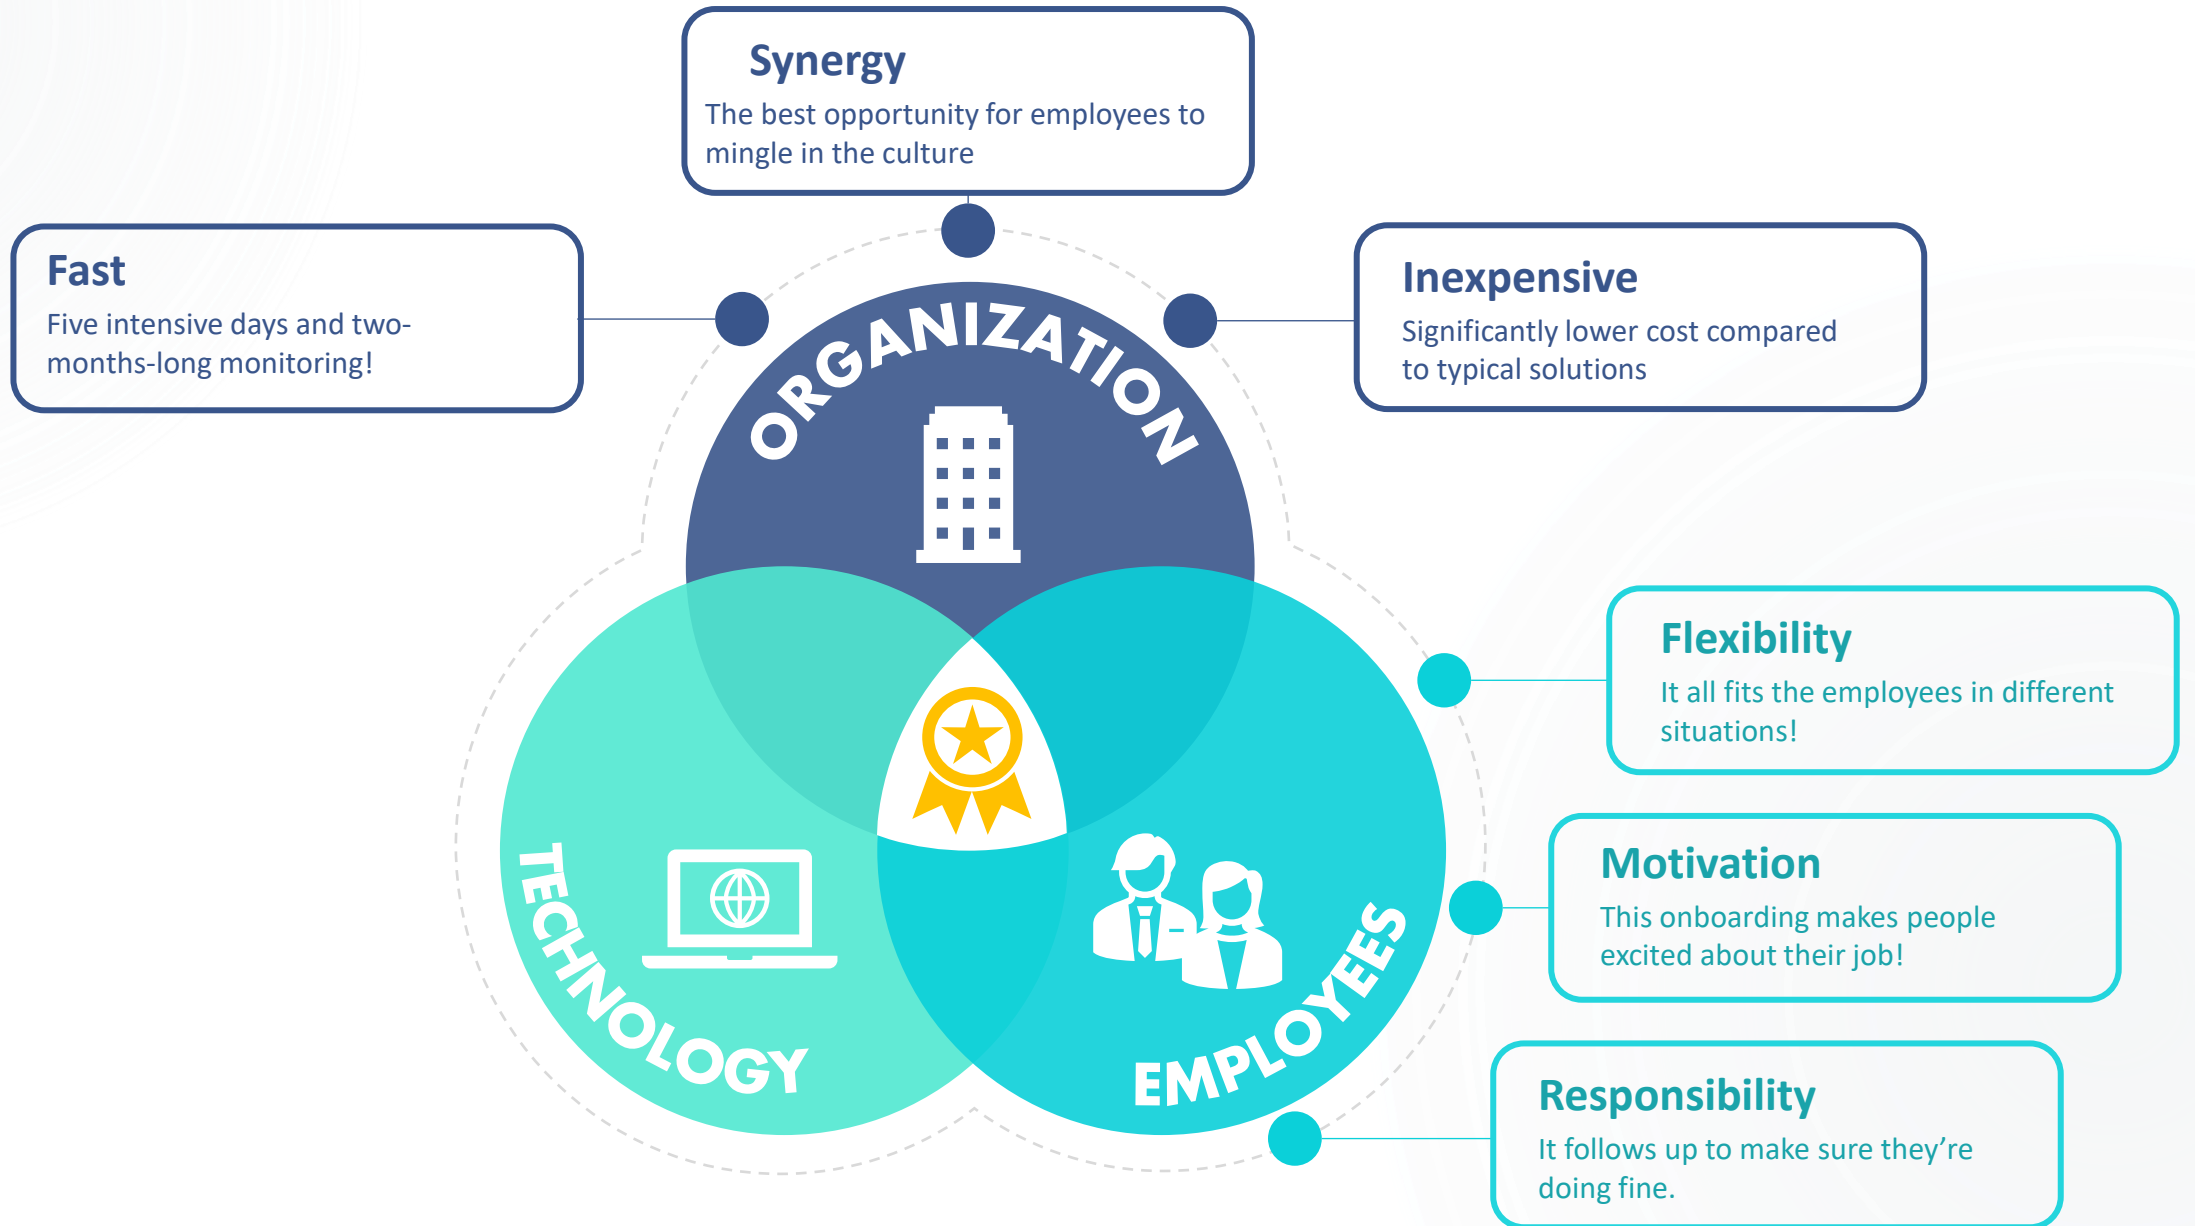

Employees can adapt to collaborative culture

Employees can build connections to get started with

# EXECUTIVE SUMMARY

# It's flexible.

We acknowledge that the employees are around the world...  
So they can work flexibly on self-paced e-learning modules!

**Only 3 hours per day** is dedicated to mock team project, which only the team members (no more than 8) have to be synchronously active.

It is designed for employees to balance their work with life, thus making their work at “Fictitious, Inc.” even more **sustainable**.

Flexible modules are focused on administrative and personal procedure knowledge, which employees will revisit many times as they work. **The information will be always there on the LMS!**

EMPLOYEES

# It's responsible.

Employees will write voluntary **reflections** on LMS about their work experience. It is private but the writers can select viewers within the intranet if they feel the need. It serves as supplementary material for the employee review as well.

Monthly **newsletters** are sent out from HR. Contents: job aid on procedures  
energy level check-in  
useful resources and tips for new employees

The Kirkpatrick model is used for **Learner evaluation**.  
Reaction via surveys  
Learning via LMS activities  
Behavior via peer observations  
Results via project outcomes, turnover data, employee review, etc.

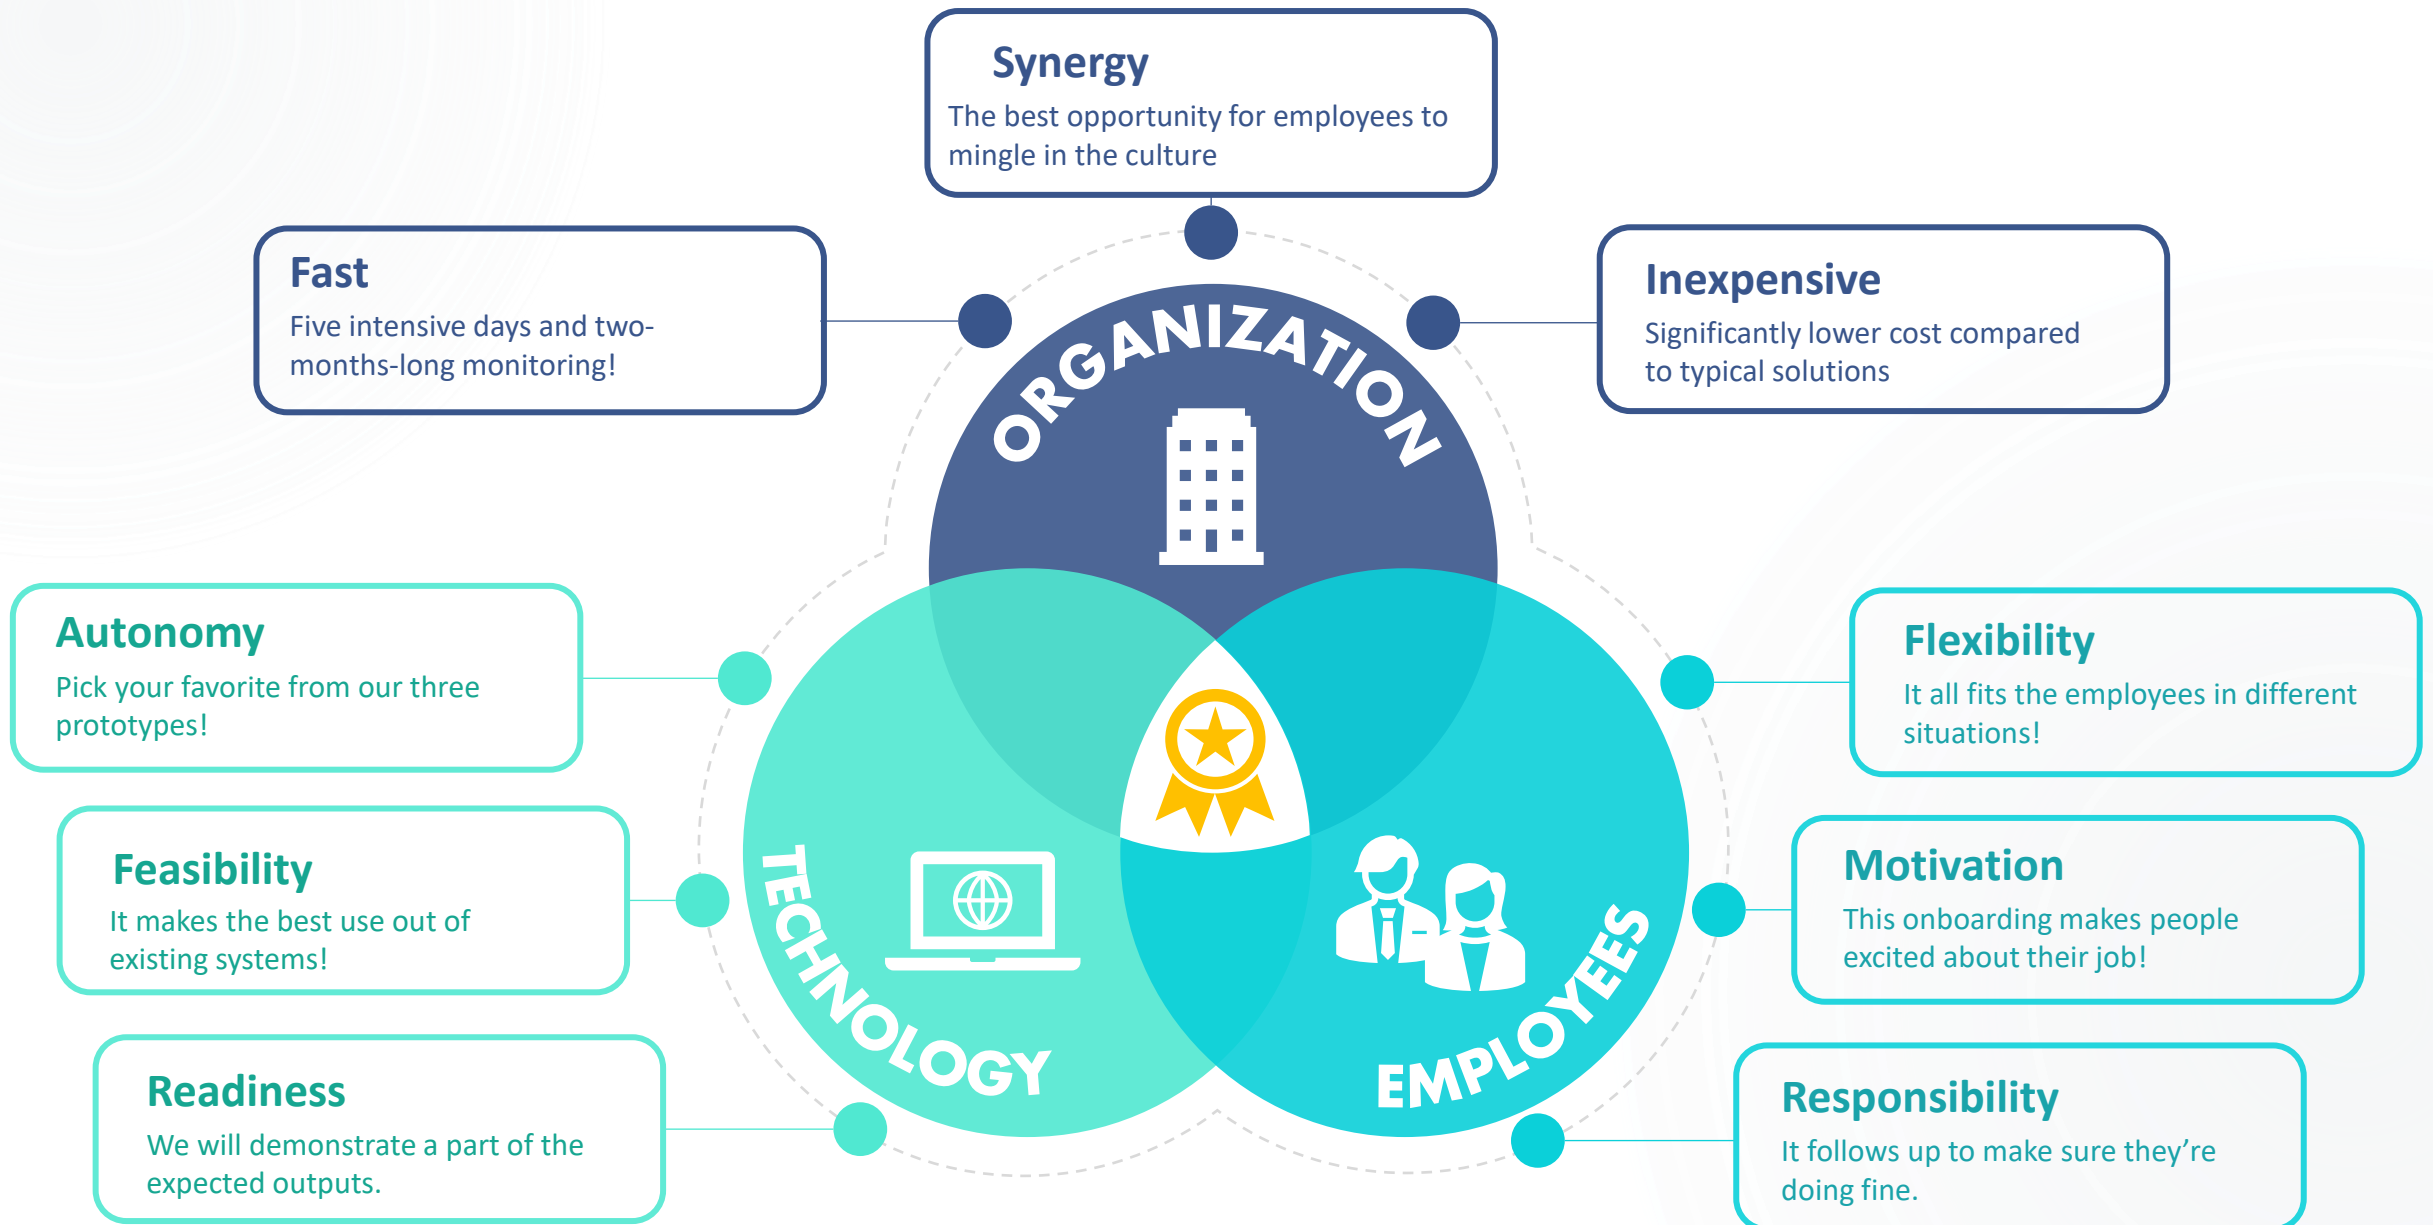

Full-scope evaluation model is used for **Program evaluation**.  
Formative evaluation via meetings  
Summative evaluation via surveys  
Confirmative evaluation via delayed interviews  
Meta-evaluation after each business cycle
